Dear Pneumex Staff,

I want to take this opportunity to thank all of you for your hospitality during both of my visits to Sandpoint. I cannot tell you how much I have learned from all of you at Pneumex. I have never witnessed a company like Pneumex that has an entire staff of great people.

Vividly, I can see that each of you has an integral role in making Pneumex a special place. I don't know of a place that you can come into the business and factory, check out how the stuff is made, share food with the owner and staff of the company, stay with owner and staff, and build relationships with all the people involved with the company. Now I can clearly see why Pneumex has made such an impact on my life.

Despite the evil pain that I have been in for the past few months, the experiences that I have been fortunate to have in Sandpoint have opened my eyes to what it's all about and have brought me to understand that most things in life happen for a reason. I am proud to be a part of Pneumex and its values. Thank you for everything! And thanks for educating and everything else that all of you did for Caleb. He can't quit talking about his experience and is very excited to start practicing what he learned.

You are the best!

Jason
